Package conveyors

Transport of:

- cartons;
- cases;
- shrink packs (bottlers or jars in packs).

Application:

- beverages and non alcoholic drinks;
- milk industry;
- brewing and winemaking;
- spilit industry;
- meat industry
- confectionary and baking;
- food, fruit and vegetables industry;
- pharmaceutical and chemical industry;
- plastic products industry.

Characteristic features:

- Conveyor's construction is made of 3mm thick acid-resistant steel, what assures its stiffness and stability.
- Separating and mounting rods for bands with 16mm;
- World rank materials adjusted to the highest standards;
- Supports for height regulation of conveyors;
- Project and execution in compliance with European quality and safety norms.

Scope of supply:

To ensure the best quality of our conveyors we equip them with the **chains from Acetal** with lower friction factor. Its ensures quiet work of conveyors, increases line's efficiency and decreases costs of exploitation by lower energy consumption by motoreductors. For filling lines with buffering we use chains with **special accumulative rollers** which enable easy packages rolling of on conveyors.

Our conveyors are most oftenequipped with **SEW Eurodrive and SITI motors**.

Cable channels (mesh or complete) can be placed on conveyors or on a special holder under conveyors, depending on Customer's needs.

We offer complex service.

Designing, constructing, assembling, starting- up and servicing all our Equipments.

We remain at your disposal any time.
